

Adaobi Ike-Okonkwo (NG)

Adaobi Ike-Okonkwo is a medical doctor. She's currently working in a tertiary health facility in Nigeria. She's interested in how universal health care can be achieved in low resource settings and in learning to write micro-fiction. When she's not taking care of patients, nine out of ten times you'll find her reading. Other times, you might catch her writing, listening to music or to a podcast.
